# Future Versions I

a free public lecture by

## Glenn Koenig

(followed by discussion)

Thursday Evening, the 20th of May, 2004  
at the First Parish U. U. Church  
730 Mass. Ave. (Arlington Center)

Doors open 7:15 PM

No one will be admitted after 8:00 PM

(please come early)

In the late 1950s, the year 2000 seemed almost synonymous with 'the future.' Now that 2000 has come and gone, do we still have a future left? Yes, we do. Are things getting worse or are they getting better? Come and find out what one person's vision is and perhaps leave with a new vision of your own.

Please see our web site, [www.openeyesvideo.com](http://www.openeyesvideo.com) for more information.

Note: A video recording will be made of the entire program, including the discussion period. All guests will be required to sign a release to attend. Please do not bring very young children or those who cannot listen quietly for the duration of the program.
